Extension of Deadline for Submission of comments on the Draft Decision on Cable & Wireless Guernsey's Price Control

On 28th November 2007 the OUR published a Draft Decision paper entitled "*Review of Cable & Wireless Guernsey's Price Control*" (OUR 07/19). That paper set out the Director General's ("DG") conclusions on the need for a new price control for the company and was based on his consideration of the best available information including inter alia the outputs of the OUR's own economic modelling, an assessment of C&WG's business plan and the OUR's market analysis. Taken together these assumptions and conclusions helped to inform his proposed position on the scope, structure and format of a new price control for Cable & Wireless Guernsey to come into effect from 1st April 2008.

The purpose of the paper was to notify the market of the DG's proposed decisions and in compliance with Section 5 (2)(b) of the Telecommunications (Bailiwick of Guernsey) Law, 2001 and invite interested parties to submit written representations and objections on the Draft Decision.

Interested parties were asked to submit written representations and objections by 4th January 2008. However following a request for an extension to the consultation period, the DG has decided to extend the deadline to 5pm on Monday 14th January 2007.
