# 1. EXECUTIVE SUMMARY

1.1 The Guernsey Competition and Regulatory Authority (the **Authority**)<sup>1</sup> is issuing this Statutory Notice of a Proposed Decision which sets out the revised price control applicable to Guernsey MTRs so as to bring MTRs down to a level that, based on the available evidence, is likely to be a much closer approximation of Guernsey MNO's LRIC costs and is more closely aligned with the prevailing level of MTRs in the UK and other European countries.

1.2 This Statutory Notice of a Proposed Decision sets out the decision of the Authority. In due course, the Authority may issue a Statutory Notice of a Final Decision or a new Statutory Notice of a Proposed Decision if responses are received, following the process outlined in Article 5 of *Telecommunications (Bailiwick of Guernsey) Law 2001* (the **Law**).

# 2. STRUCTURE OF THIS DOCUMENT

2.1 This document sets out the conclusions which the Authority has reached, having taken full account of the comments provided to CICRA 19/31 – Mobile Termination Rates – Draft Decision – Guernsey - 4 July 2019.

2.2 The document is structured as follows:

Section 3	Outlines the background and legislative basis for this Decision
Section 4	Sets out the Statutory Notice of a Proposed Decision
Section 5	Sets out the next steps

# 3. LEGISLATIVE AND LICENSING BACKGROUND

## Legal Background

3.1 Section 5(1) of the Telecommunications (Bailiwick of Guernsey) Law, 2001 (the 'Telecoms Law'). Provides that the Authority may include in licences such conditions as it considers necessary to carry out its functions. The Telecoms Law specifically provides that such conditions can include (but are not limited to):

- conditions intended to prevent and control anti-competitive behaviour; and
- conditions regulating the prices, premiums and discounts that may be changed or (as the case may be) allowed by a licensee which has a dominant position in a relevant market.

---

<sup>1</sup> The Jersey Competition Regulatory Authority (JCRA) and Guernsey Competition and Regulatory Authority (GCRA) co-ordinate their activities in the Channel Islands. However, for the purposes of this document, the Authority refers to the GCRA only as the Decision relates to Guernsey only.

- 3.2 Under Section 10(2)(c) of the Telecommunications (Bailiwick of Guernsey) Law, 2001, a licensee found to be dominant in a relevant market is obliged to provide interconnection and access on “terms, conditions and charges that are transparent and cost-orientated”.
- 3.3 In addition, Section 10(4) of the Telecoms Law provides for the Authority to require a licensee to justify the costs of and charges for providing interconnection or access and to show that those charges are derived from actual costs.
- 3.4 These provisions allow the Authority to regulate MTRs, should there be a need for regulatory intervention.

### **Regulatory Framework**

#### Finding of SMP

- 3.5 In October 2017, following a review of the mobile market, the GCRA made a decision with respect to the existence of SMP in the markets for mobile call termination. That decision found that each mobile operator has SMP in the market for terminating calls on its own network.
- 3.6 MNOs, in their responses to the Call for Information, confirmed that they considered that the October 2017 decision of the Authority still stands.

#### Licence Conditions - MNOS

- 3.7 Condition 28.2 of the licence issued to JT, Sure and Airtel provides that:

*“The GCRA may determine the maximum level of charges the Licensee may apply for services within a relevant market in which the Licensee has been found to be dominant. A determination may:*

- a) Provide for the overall limit to apply to services or any combination of services;*
- b) Restrict increases in any such charges or to require reductions in them whether by reference to any formula or otherwise; or*
- c) Provide for different limits to apply in relation to different periods of time falling within the periods to which the determination applies.”*

- 3.8 This condition therefore allows the GCRA to regulate the prices that and MNO charges for telecommunications services in a way and for a time that it deems appropriate, provided that the MNO has a dominant position in the relevant market in which those services are supplied.
- 3.9 Condition 29.1(b) of MNO’s licence is designed to protect fair competition in the markets in which the MNO operates, and provides as follows:

*“The Licensee shall: ...*

*(c) comply with any direction issued by the GCRA for the purpose of preventing any practice or arrangement that has the object or effect of preventing, restricting or distorting competition in the establishment, operation and maintenance of Mobile Telecommunications Networks or the provision of Mobile Telecommunications Services.”*

- 3.10 This condition allows the GCRA to give directions to an MNO, including in relation to the prices that it charges.

## Approach to setting MTRs

- 3.11 The EC Recommendation<sup>2</sup> expects that termination rates are set based on the costs incurred by an efficient operators, and that this is based on bottom-up modelling using LRIC as the most appropriate costing methodology.
- 3.12 Mindful of its statutory duties, the GRCA adopts a proportionate approach to the analysis of MTRs, bearing in mind the comparatively small scale of the regulated markets and the resources it has available.

## 4. STATUTORY NOTICE OF A PROPOSED DECISION

- 4.1 For the reasons set out in the draft decision entitled “2018/19 Review of Mobile Termination Rates in Guernsey”, published on 4 July 2019; and in the final entitled “2018/19 Review of Mobile Termination Rates in Guernsey”, published on 23 September 2019, the Guernsey Competition and Regulatory Authority (“**the Authority**”) proposes to issue a direction (“**the Direction**”) to each of the operators licensed to provide mobile telecommunications services in Guernsey, listed in the schedule hereto, under Condition 28.2 of their respective licences.
- 4.2 Before exercising a regulatory function, the Authority is required to give ‘Statutory Notice of a Proposed Decision’. This gives notice that the Authority intends to make the following Direction.
- 4.3 The Authority intends to make the following Direction on 23 October 2019.
